Office Action Summary

The preliminary amendment of 9/5/01 has been entered. The amendment amended the specification, canceled claims 1-25, and added new claims 26-61.

Claims in the application are 26-61.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 26-45 and 56-59, drawn to a microcellular polyhipe polymer scaffold, and to system, uses and organ support requiring the scaffold, classified in class 424, subclass 423.

II. Claims 46-55, drawn to a process of preparing a microcellular polyhipe polymer scaffold, classified in class 521, subclass 61.

III. Claim 60, drawn to a method of manufacturing an organ support module, classified in class 521, subclass 63.

IV. Claim 61, drawn to use of the polyhipe scaffold for manufacture of contact lenses, dental fillings, cochlea implants, vascular supports or drug delivery skin patches, classified in class 424, subclass 429.

The inventions are distinct, each from the other because:

The process of II can produce a microcellular polyhipe polymer scaffold having characteristics different than required by I for a microcellular polyhipe polymer scaffold, and the scaffold of I can be produced by a process different than required by II. The scaffold of I can be produced and used and the process of II can be carried out without performing a

method of manufacturing an organ support module as required by III and without using the scaffold as required by IV. The method of III and the use of IV can be performed without carrying out the method of II.

Inventions I, II, III and IV can each provide a different end result

5 based on requiring a different special technical feature.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

10 Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance
15 with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications
20 from the examiner should be directed to David M. Naff whose telephone number is (703) 308-0520. The examiner can normally be reached on Monday-Thursday and every other Friday from about 8:30 AM to about 6:00 PM.
